

#	DESCRIPTION OF PROBLEM (Mention the procedure that leads to the error or simply an issue that should be fixed)	WINDOW (the name of the window in question)	COMMENTS
1	LCD DISPLAY! LCD shows no change! It shows change : Blank.	LCD POS DISPLAY	<b>Fixed in version 3.3</b>
2	LCD DISPLAY! Opening another sales window (Pressing F2) still displays error. But when u close the error dialog box, the window works to sell. What I did was to choose not to display the error. However, this doesn't show WELCOME TO JOMA SUPERMARKET. It doesn't clear the display for a new receipt. There is still a problem there!	LCD POS DIAPLAY	<b>Probably fixed in version 3.3</b> Please check and let me know of the exact error you get, if any. If symptoms persist, I may need to retrieve the Display and test myself
3	There is still this Drawer problem! 	Sales	<b>Register StarCEComponents.ocx as explained in email</b>
